EXPERIENCE

ASHM Health, UX Engineer | 2024 – 2026

My role consisted in creating accessible healthcare solutions driven by user research and a design thinking approach. Core responsibilities included end-to-end UX Design, and occasional UI Development.

Freelance, Remote, UI/UX Designer (hyperhq.com, RecordPoint.com) | 2023 – 2024

My role was to create User Flows, Wireframes and UI prototypes that provide a way for tech startups to launch digital products.

Neutopia.co, Remote, UX Designer | 2023

UX Design project to Implement a seamless and guiding on-boarding system as well as a Data Visualization feature for Analytics purposes.

Wilderlands.co, Remote | UX Researcher

OCT 2022 – DEC 2022

UX research project to understand how to increase the acquisition and conversion of donors for Wilderlands biodiversity unit program.

NRL, Remote, UX Designer | 2022

Project using a HCD (Human-Centered-Design) approach to improve the user experience and increase retention and acquisition of volunteers for the NRL's community coach program.

simPRO, Brisbane, Software Developer | 2022

As part of a large Agile team, my role was to develop Android & IOS apps.

Talcasoft, Sydney, Software Developer | 2021

Worked as part of a small team on a Desktop Application for the transport industry, built in C# & .NET Framework.

Volt Bank, Sydney, Customer Support | 2019 – 2020
